

Kindle Fire

NEIBORS Guides

Updated 12/29/2011

eBooks can be downloaded to the Fire using either the browser on a computer or the browser on the Fire itself; the process is the same:

1. Log on to your Amazon account; you will need it later.
2. Visit the NEIBORS website at <http://neibors.lib.overdrive.com>; log in, and browse or search for an eBook.
3. Look for “Kindle Book” as a choice on an eBook, and click on “Add to Cart”

Here to Stay
A Harrigan Family Novel
by Catherine Anderson

Mandy Pajeck had a tough childhood. Now 28, she feels responsible for the accident that took her younger brother's sight. But his complete reliance on her care is making them both miserable. When she...

Kindle Book

Get for Kindle

Checked out on: Sep 21, 2011

Expires on: Oct 05, 2011

7. Amazon’s website will open up in a new window (or new tab). Log on to your Amazon account, if you aren’t already logged on.
8. Make certain that the device listed under “Deliver to” is your Fire, and click on “Get library book.”

The screenshot shows the Amazon Kindle Store interface. At the top, there is a navigation bar with 'Shop All Departments', a search bar containing 'Kindle Store', and buttons for 'Cart' and 'Wish List'. Below the navigation bar, there are links for 'Kindle Store', 'Buy A Kindle', 'Cloud Reader', 'Kindle eBooks', 'Kindle Singles', 'Newsstand', 'Popular Games', 'Accessories', 'Discussions', 'Manage Your Kindle', and 'Kindle Support'. The main content area is titled 'Get Your Public Library Loan'. On the left, there is a book cover for 'Here to Stay' by Catherine Anderson. To the right of the cover, the book title 'Here to Stay: A Harrigan Family Novel' is displayed, along with the author's name 'Catherine Anderson (Author)'. Below this, there are two bullet points: 'Public library books require an active Wi-Fi connection for wireless delivery to a Kindle device. Library books will not be delivered via your Kindle's 3G connection.' and 'Kindle automatically backs up all of your notes and highlights. If you choose to purchase the book at a later date from the Kindle Store or check it out again, all your notes and highlights will be preserved.' At the bottom of this section, the 'Expiration Date: October 5, 2011' is shown. On the right side of the page, there is a green box with the text 'You are signed in as k @mac.com Use a different Amazon account'. Below this, there is a 'Get library book' button. Underneath the button, there is a 'Deliver to:' dropdown menu showing 'Karen's 4th Kindle'. At the bottom of the green box, there is a link 'How does this work?'. Below the green box, there is a white box with the text 'Read books on your computer or other mobile devices' and a 'Get Kindle for PC' button.

9. And the book will be delivered to your Fire. (Your Fire must be connected to a wi fi network in order for the book to be delivered.)

10. To return a Kindle book early:

In your Amazon account's "Manage Your Kindle" page, find the title on Your Kindle Library, and pull down the "Actions" menu to the far right and select return.

These might come up:

The NEIBORS website in the Kindle Fire's browser doesn't look the same as it does on the computer, and I can't see any Kindle books.

Your Fire's browser may be bringing up the mobile site, and Kindle books aren't available through the mobile site.

There are 2 ways to get the full ("desktop") site:

1. The first method will force the NEIBORS site to the full site, but will leave the browser setting so that other websites you visit will bring up the mobile site (if they have one).

You can force the Fire's browser to bring up NEIBORS's site by typing in a new address—it's long, so be careful typing it in!

<http://neibors.lib.overdrive.com/776526A9-1FE4-4F16-B323-F905C26549A6/10/435/en/Default.htm>

When the browser displays the full site, you may wish to bookmark the address; to be sure you don't have to type it in again.

2. The second method is a setting change, so the Fire's browser will display ALL websites as full/desktop versions. Patrons should use this only if they don't want other sites to display the mobile version, either. (Or, if they're willing to toggle the setting each time they use NEIBORS:

In the Silk browser, tap Menu button > Settings > (scroll to "Advanced" items) > Desktop or mobile view.

I've had Amazon deliver a book to my Fire, but I don't see it there.

You may have to sync your Kindle in order to force it to pick up the book immediately:

1. Touch the Settings icon in the upper right corner of the Fire's screen (it's a small cog, to the left of the battery indicator)

2. Touch "Sync" from the menu that opens at the top of the screen

3. Your book should appear on your "Books" shelf; "Device" should be selected (rather than "Cloud") at the top of the Books screen.

When I try to log on to NEIBORS on the Fire, I can select my library from the list, but it never gives me the page to enter my barcode number.

If your library is using EZ Proxy to authenticate, you'll have to make a change in the Fire's browser settings:

1) From the Home screen, tap on the "Web" tab

2) tap on the menu icon on the bottom toolbar (looks like a page with some lines on it) and select "Settings" from the menu that pops up

3) Scroll down to "Accelerate page loading" and uncheck it

The patron should be able to log into NEIBORS, check out a Kindle book, and proceed with the process as they would on a computer. (If they still aren't able to log in, try shutting down the Fire completely, and re-starting it.)
